FV PPR VALVE

BALL VALVE WITH LEVER

New, perfectly tight ball valve
with an ergonomic lever
and many more enhanced features

FV AQUA

FV PPR BALL VALVE WITH LEVER

A new plastic ball valve, not only with its modern ergonomic look, but also with improved features such as ease-of-use, increased durability, or full flow profile.

The main benefits

- Perfect tightness of the valves
- Improved shaft housing design
- Protective sleeve to prevent dirt on the lever
- Ergonomic lever for easy handling
- Fully flow profile
- Enhanced installation and control comfort, thanks to innovative design, suitable materials and optimal manufacturing process

Technical parameters

Colour	green / gray
Material	PP-R
Appropriate uses	hot and cold water
