## FV MANIFOLDS

FOR HEATING AND COOLING

PUSH ADAPTERS - QUICK INSTALLATION, NO COROSION

MAX TEMPERATURE 90°C

Complete  
stainless steel and plastic  
manifolds with flow meters  
specified for system of floor heating  
**FV THERM**

**FV THERM**

# INOX

## 1" STAINLESS STEEL MANIFOLD FV THERM INOX SUITABLE FOR FLOOR HEATING WITH EUROPONUS OUTLET.

Suitable dimensions from **d 10 x 1,3 mm - d 20 x 2,0 mm.**

| Eligible liquid: **water or glycolic acid up to max concentration 50 %**

| Operating temperature: **5°C - 55°C** | Max temperature: **60°C** | Operating pressure:

**0 - 6 bar** | Max pressure: **10 bar** | Distance between outputs/valves: **50 mm**

| Range of adjustable stands: **210 - 273 mm** | Width of the box: **> 76 mm.**

NUMBER OF CIRCUITS	WIDTH of manifold B [mm]	CONNECTION METHOD					
		without mixing from the side (horizontal)	without mixing from bottom (vertical)	with regulating valve from the side (horizontal)	with regulating valve from the bottom (vertical)	with circulating pump from the side (horizontal)	with mixing from the side (horizontal)
recommended min. width of the manifold case B1 [mm]							
<b>2 circuits</b>	<b>192</b>	450	680	530	830	680	830
<b>3 circuits</b>	<b>242</b>	530	680	680	830	680	830

# GF/PAD 16

## 1" PLASTIC MANIFOLD FV THERM GF/PAD FOR FLOOR HEATING WITH SLIDE-ON PUSH ADAPTER

Suitable dimensions from **d 16 x 2,0 mm** | Eligible liquid: **water or glycolic acid up to max concentration 50 %** | Operating temperature: **5°C - 55°C** | Max temperature: **60°C**

| Operating pressure: **0 - 6 bar** | Max pressure: **10 bar** | Distance between outputs/valves: **50 mm** | Range of adjustable stands: **210 - 273 mm** | Width of the box: **> 76 mm.**
